

SECURE AND EFFICIENT ACCESS TO ENTERPRISE-WIDE DATA

Clintegrity 360 | File Manager

Manage, process and securely store business information in one convenient electronic repository

CHALLENGE:

How can I provide my healthcare organization with user-friendly, but secure, access to enterprise-wide data?

SOLUTION:

Clintegrity 360™ | File Manager, a Nuance® Healthcare solution, is a non-patient specific document management solution that enables healthcare organizations to manage, process and securely store business information in one convenient electronic repository.

Eliminate lost or misfiled records. Reclaim valuable storage space. Reduce costs associated with handling paper records. Clintegrity 360 | File Manager does all of this while providing secure, efficient access to enterprise-wide data.

DELIVERING ENTERPRISE-WIDE BENEFITS

Clintegrity 360 | File Manager makes it easier to manage and track documents and reports throughout the healthcare facility. Administrative costs are minimized as the need to print and store reports is reduced. Staff productivity increases as multiple users simultaneously access clinical, financial and/or personnel records.

KEY BENEFITS

- Minimizes denials associated with lost reports
- Supports role-based access and audit trail logging
- Expedites record retrieval with user-defined indexing

MAINTAIN COMPLIANCE

Audits are simplified with Clintegrity 360 | File Manager. From handwritten notes to clinical and financial information, all documentation can be accessed from a single, web-based portal. Healthcare facilities no longer need to assemble lengthy paper reports; auditors just need computer access.

INCREASED ADOPTION RATES

Clintegrity 360 | File Manager's user-friendly interface makes it less expensive to implement, train, and maintain. The web-based application allows anywhere, anytime access to all enterprise documentation and permanently decreases the backlog of unprocessed paper filing.

SMARTER FEATURES

- Single, industry-standard database solution
- A true web-native application
- Scalable, enterprise-wide and database independent solution that is capable of handling deployment for both single hospitals and multi-facility integrated delivery systems
- Utilizes scanned patient documents to replace existing paper records and outdated microfiche storage
- Combines the full spectrum of non-patient specific data assets into one workstation
- Includes scanning and electronic data importing

ABOUT NUANCE HEALTHCARE

Nuance Healthcare, a division of Nuance Communications, is the market leader in creating clinical understanding solutions that drive smart, efficient decisions across healthcare. As the largest clinical documentation provider in the U.S., Nuance provides solutions and services that improve the entire clinical documentation process—from capture of the complete patient record to clinical documentation improvement, coding, compliance and appropriate reimbursement. More than 450,000 physicians and 10,000 healthcare facilities worldwide leverage Nuance's award-winning voice-enabled clinical documentation and analytics solutions to support the physician in any clinical workflow on any device.
