

ENHANCED DATA ANALYSIS FOR IMPROVED DECISIONS

Clintegrity 360 | Performance Analytics

Easily track clinical and financial performance

CHALLENGE:

How can I demonstrate quality financial and clinical performance?

SOLUTION:

Make performance improvement decisions easy with tools to benchmark and track costs, quality, and profitability of healthcare services provided. Compare your facility to other health systems around the country in a variety of areas, including physicians' complication rates, patient length of stay, cost per case and much more.

ENHANCED DATA ANALYSIS FOR IMPROVED DECISIONS

Clintegrity 360 | Performance Analytics, a Nuance® Healthcare solution, provides a comprehensive, customizable decision-support system, enabling enhanced trend and data reporting for both clinical and financial data analysis. Drive improved care and reduce costs by tracking, analyzing, and benchmarking your performance data against the national database, which includes all payer inpatient data for multiple states and all Medicare inpatient discharges. Clintegrity 360 | Performance Analytics can also extract, for comparison and reporting, data points from information such as:

- Inpatient, same-day surgery, emergency department, clinic, and other outpatients

KEY BENEFITS

- Improves clinical and financial performance
- Enhances reporting with customizable benchmarking data
- Provides risk-management assessment
- Increases revenue from managed care contracts
- Improves physician recruitment efforts

- Detail billing data at the charge-code level
- Uniform bill administrative, clinical, and financial data
- Physician-, patient-, and department-specific cost of care and length of stay
- National Hospital Quality Measures
- Agency for Healthcare Research and Quality indicators
- Physician profiles, which can help with report cards and physician recredentialing and Ongoing Professional Practice Evaluation
- Leapfrog
- Regulatory and credentialing registries

With Clintegrity 360 | Performance Analytics, you can create a report that highlights your lines of service that may be at financial risk or highlight the areas of service that are doing particularly well. Clintegrity 360 | Performance Analytics can also identify opportunities to create dedicated lines of service by tracking the trends of service utilization and performance.

FEATURES AND BENEFITS

- **Improves clinical and financial performance.** Between in-house analysis and available benchmark data, you can use Clintegrity 360 | Performance Analytics reporting to effectively focus quality improvement activities.
- **Enhances reporting with customizable benchmarking data.** Choose to compare your performance to national and regional facilities in a variety of different ways, including length of stay, severity classifications, payer types, and dozens more.
- **Provides risk-management assessment.** Identifies and tracks physician incidence rates, complication rates, and more. Use in conjunction with risk-management tracking tools to yield a 360-degree report of physician performance.

- **Increases revenue from managed care contracts.** Use Clintegrity 360 | Performance Analytics to demonstrate efficient care, shorter length of stay, and lower costs, which will enable you to negotiate more robust contracts.
- **Improves physician recruitment efforts.** Clintegrity 360 | Performance Analytics data can show which physicians are responsible for providing the majority of services and determine the appropriate time to recruit new physicians for those critical services.

ABOUT NUANCE HEALTHCARE

Nuance Healthcare, a division of Nuance Communications, is the market leader in creating clinical understanding solutions that drive smart, efficient decisions across healthcare. As the largest clinical documentation provider in the U.S., Nuance provides solutions and services that improve the entire clinical documentation process—from capture of the complete patient record to clinical documentation improvement, coding, compliance and appropriate reimbursement. More than 450,000 physicians and 10,000 healthcare facilities worldwide leverage Nuance’s award-winning voice-enabled clinical documentation and analytics solutions to support the physician in any clinical workflow on any device.
